Objective:

Detail-oriented Junior Data Analyst and Computer Science student skilled in SQL, Microsoft Excel, and Power BI dashboard development. Experienced in ETL processes, data cleaning, and transforming retail datasets into actionable business insights.

Education:

Ain Shams University, Faculty of Computer and Information Sciences Sept 2024 – Present

- Bachelor of Computer and Information Sciences (Major: Mainstream)
- Expected Graduation Year: 2028

Technical experience & Projects:

- **Retail Sales & Business Intelligence Dashboard** (August 2026)
  - Cleaned and validated multi-channel sales data using SQL queries and engineered interactive Power BI dashboards to track daily business trends and KPI metrics.
- **Python Development Intern | Codveda Technologies** (Spring 2026)
  - Developed backend software solutions, ensuring code optimization and efficient runtime performance.
  - Created technical demonstration videos to present project workflows and deployment logic.
- **CartZone – Full-Scale E-commerce Platform** (Spring 2026)
  - Built an e-commerce platform integrated with a PostgreSQL database management system.
  - Implemented secure user authentication and authorization using JWT.
- **Flight Reservation Desktop App (Python & SQLite)** (Spring 2025)
  - Developed a fully functional desktop application utilizing Tkinter GUI and Python.
  - Designed and managed an SQLite database to store and retrieve reservation, booking, and user details.

Activities & Leadership:

- **Front-End Committee Leadership | MSP, Ain Shams University** (Sept 2025 – Present)
  - Coordinated committee workflows, managed task follow-ups, and prepared technical training materials.
  - Provided practical support during sessions and evaluated members' assignments to ensure learning quality.

Certifications & Training:

- **Full-Stack Web Development Program** – Sprints (June 2026)
- **Programming using Python** – Sprints & Microsoft (2025)
- **Web Development** – Sprints & Microsoft (2025)

Skills:

- **Technical Skills:**
  - **Programming & Frameworks:** C++, Python, Java, Django, JavaScript frameworks.
  - **Front-End & Web Development:** HTML5, CSS3, Responsive Design.
  - **Databases & Analytics Tools:** Microsoft Excel, SQL, SQLite, PostgreSQL, Power BI.
  - **Tools & Platforms:** Git/GitHub, Microsoft Office.
- **Soft Skills:**
  - Analytical Thinking, Problem Solving, Teamwork, Communication Skills, Presentation Skills, Time Management, Conflict Management, Public Speaking.
- **Languages:** Arabic (Native), English (Very Good).
